Newsletter

February 2004

9th IOF World Wide Conference of Osteoporosis Patient Societies was held in Istanbul, Turkey, September 4-7, 2003.

This meeting was organized by the IOF together with the Osteoporosis Patient Society of Turkey.

The IOF World Wide Conference of Osteoporosis Patient Societies (IOF-WWC) is the most important event for osteoporosis patient societies from around the world to plan strategies and share with their experiences. The skills learned at the conferences help the national societies in their efforts to increase basic awareness on osteoporosis, and lobby activities.

IOF CEO, Daniel NAVID, Prof. Dr. Gulseren AKYUZ, the President of Osteoporosis Patient Society of Turkey, Filiz AKIN, the Honorary President of OPST during the opening ceremony.

The conference started with a welcome cocktail in the Hilton Hotel, Istanbul on September 4 evening. In following day, IOF CEO, Daniel NAVID, The President of Osteoporosis Patient Society of Turkey (OPST), Prof. Dr. Gulseren AKYUZ, The Honorary President of OPST, Filiz AKIN had a talk about the importance of osteoporosis and WWC 03 in the opening ceremony.

Some 150 participants shared information and learned valuable skills in the areas of media training, communication, education, management structure, patient support and lobbying during the WWC 03. In addition to the workshops and plenary sessions, nine societies received valuable awards.

The IOF-LILLY Osteoporosis Policy Initiative Grants were given in the IOF Family Dinner on September 5 evening)

The program was also very rich from the cultural and historical facilities. The participants had an opportunity to visit some historical places such as Agia Sofia, Blue Mosque, Underground Basilica, and a Boat Tour in Bosphorus.

The first WWC, hosted by the UK's National Osteoporosis Society, was held in Bath, England in 1995 with 35 attendees. In September 2003, some 150 people from 60 countries attended the 9th WWC held in Istanbul, Turkey.

In the end of the WWC, Daniel NAVID, thanked Gulseren AKYUZ, The President of OPST, for her society's warm hospitality and excellent organization.

From the left to the right: Prof. Dr. Peter BURCKHARDT, The President of the Committee of National Osteoporosis Societies; Prof. Dr. Ghassan MAALOUF, The Executive Committee Member of IOF; Laura MISTELI, The Web Manager of IOF; Prof. Dr. Jean Yves REGINSTER, The Secretary General of IOF; Daniel NAVID, IOF CEO; Prof. Dr. Gulseren AKYUZ, The President of Osteoporosis Patient Society of Turkey; Prof. Dr. Pierre DELMAS, The President of IOF; Jenny BONNET, The Secretary of IOF; Paul Spencer SOCHACZEWSKI, The Communication Adviser of IOF.

**2nd Congress on
Osteoporosis & Osteoarthritis will be held on
April 21st – April 25th, 2004 in Turkey**

Turkish Joint Diseases Foundation organizing a congress on *osteoporosis and osteoarthritis* in Antalya, Turkey. The aim of the meeting is to increase the awareness and the knowledge of the *orthopaedic surgeons* on the prevention, diagnosis, and treatment of osteoporosis. With a multidisciplinary approach, the incidence, the prevalence, and the burden of this silent epidemic will be discussed.

The speakers will try to answer the following questions

- *What is osteoporosis?*
- *Why should the orthopedic surgeon be concerned?*
- *How should the patients with osteoporotic fractures be evaluated?*
- *Who to treat?*
- *How to treat?*

The medical treatment of osteoarthritis will be also discussed in this meeting. The orthopaedic surgeons will be told that most of patients with osteoarthritis can be managed with conservative measures.

The economical aspects will be also discussed during the congress.

Final announcement is as follows;

Invitation Letter

Dear Colleague,

Osteoporosis and Osteoarthritis have emerged as the most disabling diseases during the last 20 years. The costs caused by osteoporotic fractures of spine, hip and forearm; and the financial burden related to osteoarthritis are considered as a major determinant of the healthcare budget.

There have been developments in the pharmacological treatment of osteoporosis and osteoarthritis. But one cannot say that the orthopedists have sufficient interest on this issue.

On the other hand, the patients are referred to the orthopedists for the treatment of fractures caused by osteoporosis; most of our colleagues treat the fractures only, and they neglect osteoporosis. Whereas, the probability of another fracture in these patients is very high.

Bone and Joint Decade is dedicated to improve the quality of life for people with musculoskeletal disorders worldwide. World Health Organization (WHO) and International Osteoporosis Foundation (IOF) aimed to raise the orthopedists' awareness and interest on this issue.

I believe that the 2nd Congress of Osteoporosis and Osteoarthritis organized by Turkish Joint Diseases Foundation under the auspices of WHO Collaborating Center, Liege, IOF and TOTBID will have important contributions to reach these goals in the name of patients, physicians and our country.

I look forward to meeting you in 2004.

O. Şahap ATIK
CONGRESS PRESIDENT
